

SECTION 646

Counter Threat Operations

S646 is a consultancy specialising in counter-threat operations for areas of mass gatherings and crowded places be they private or public areas. Our services have the ability to dovetail back into our 'routine' risk entity via [Safety Set Consulting](#). A unique advantage allowing for a more comprehensive approach ensuring compliance with country of origin Health and Safety legislation.

Services Provided:

Threat Assessments: A threat assessment identifies and examines criticality, vulnerability and threats across the threat spectrum allowing for target hardening. It incorporates all genre of threat likely to be encountered. Threat assessments close out with a report offering proportional cost effective mitigations and assistance to implement.

VIP/High Profile Assessments: Folding back into counter threat assessments, we assess every step of an important visitors time, identifying and mitigating threats be it in New Zealand or off shore. Aircraft off to aircraft on, and all things in between. S646 have assessed, mitigated, generated operational documents, and executed those operations on the ground at the highest level of VIP counter threat assistance.

Training and Confidence: You pick up the phone and it's a bomb threat, do you know what to do and how to respond? Do you have documented lockdown procedures, are they tried, tested and understood? Our workshop, tailored to your business perimeters provides the answer to these and many more counter threat questions.

Principal Obligations and Scenario Training: Tasked with making those all important decisions should an incident or crisis occur? Scenario training assist key decision makers to informed decisions under pressure at a time that could save lives.

Counter-Threat Plans and Operational Procedures: Does your current health and safety system incorporate counter-threat/hostile action policies and procedures inclusive of actions on? We will work with you to provide this content folding it back into your existing safety documentation.

Onsite Threat Management: Having a trained operator on site during an event or VIP visit allows you to focus on what you do best, secure in the knowledge that should an incident occur, pre-emptive action and response is taken care of.

Behavioural Detection and Analysis: Our staff are trained in Human Behaviour Detection (HBD), the ability to scan crowds and identify potential offenders and take action before they commit a hostile act against you. HBD's offer the opportunity to work in the proactive rather than reactive space.

Penetration Testing: How far could a determined offender penetrate into your business or controlled area. Have your existing systems been tried and tested?

Additional Services: Available on request.
